

ELECTROVENT

Control Dampers - Round

ECD-R

A ruggedly built damper with a factory mounted locking quadrant designed especially for manual balancing applications within round spiral ductwork. It is easy to install and seal, becomes part of the ductwork, and offers an economical alternative to a "shop built damper"

Frame	1.2mm galv. steel
Blade	1.6mm thick galv. Steel
Bushes	Glass filled Nylon
Shafts	Glass filled Nylon
Sizes	Ø80 – Ø750
Variations	Can be configured to have an actuator fitted.
